## Topics Discussed:

- Reviewing the project requirements.
- Reviewing the provided documentation in google classroom.
- Discussion about the entities that are going to be used in the project, which are subject to change.
- Creating the ERD schema for the entities in ERdplus website in order to have an initial idea how the entities are related to each other, so that we can develop the database.

## Decisions Made:

- Starting with the documentation part of the project. Creating a google docs document and giving access to each member.
- Each member is required to come up with features that we can use in the project. It is optional, whoever thinks of a feature is welcomed to speak their mind.
- Every member should update their respective part in the workflow board in Trello.

## Tasks Assigned:

- Making small changes to the ERD schema for the database.
- Creating the database and making the Login functional.
- Starting writing the documentation.
